Evolution of Education in India

OUR VISION

**To become a Centre of Excellence
imparting Quality Schooling by
unfolding the inner Potentialities
of Student.**

OUR MISSION

**To Promote Education with the
Scientific Base of Western Era
and thereby Widen the Horizons
of Indian Culture.**

**“We want education by
which character is
formed, strength of
mind is increased, the
intellect is expanded,
and by which one can
stand on one’s own
feet.”**

The Psychology of Student Planning

Planning and organizational skills aren't just for grownups anymore, and that's a good thing. With all the pressure on students to learn more material in less time than ever they need tools to be successful in school.

Having a planner gives students freedom to plan, organize and keep track of their work to be best of their abilities and requirements. This has a dual benefit in that it increases the student's accountability to the commitments planned as well as provides them with a structure that contributes to their success.

Planner reduces stress, increases productivity, easier for parents, easier for teachers and give students a break.

Hope this planner will be a great help for you !
